## PROFILE

I am a motivated and creative backend node.js developer with 2 years of educational and development experience. Especially proficient in solving problems and hard tasks.

## PROJECTS

### Full-stack developer

Feb 2022 — Sep 2022

Created and implemented money tracking app based on Nest.js microservices connected with RabbitMQ and PostgreSQL, and Angular frontend hosted with Nginx. Full information and documentation about this project, you can find at <https://github.com/async-devil/money-tracker>

## EDUCATION

### Self-learning

Aug 2020 — Present

I had been learning hard for two years to architect and develop complicated apps. During this time I have learned and achieve strong knowledge at such topics as data structures, design patterns and clean code principles.
